Post office Littleton, Colo.

Keep This List With Your Last Year's Catalog

This year we are only putting out a revised list of sizes and prices to supplement last year's catalog. Keep this list with your old catalog. You can refer to the old catalog for descriptions and planting helps, but the prices here given supercede all previous quotations. These new prices are not materially higher than two years ago, in spite of greatly increased cost of production and digging. Our selection of trees and shrubs is still fairly well complete but some sizes are not available.

We have not been able to do much outside work this past year, but have been able to take care of our growing stock so that we now have a nice lot of salable material. We will do the best we can with the help we are able to get to fill your orders, but it does not look now as though we could do any outside work.

Prices quoted here are for plants dug, and delivered in the vicinity of Denver and Littleton.

PLANTING CHARGE

When you want us to plant an order, we will make a planting charge of one-third of the cost of the material. This is the average actual cost. Our planting charge last year did not cover the actual cost. This charge includes a guarantee that all plants will make a satisfactory growth by July 15. We guarantee stock only as to its condition at time of delivery unless we plant it ourselves.

 This sign indicates a rare or especially valuable plant.

* This sign indicates a special price on account of being overstocked.

Sizes indicated on shrubs mean average height.

Sizes on trees indicate height in feet of small sizes and diameter at base of larger trees.

We invite you to come out and select your plants as they are growing in the nursery, and if possible take them with you.
